

Sees in the Dark

PTZ130K

The PTZ130 is a well-engineered and beautifully designed product for high-end internal surveillance applications. It is also used as the "internal" part of our high-speed external domes.

With its superior construction and belt driven design this dome is a high precision unit and maintains its preset positions up to $\pm 0.1^\circ$! The dome has an automatic 180° picture flip facility and provides panoramic monitoring without any blind spots. The low noise and high performance of this dome make it great choice for more up market retail and internal monitoring applications.

With an optional ceiling bracket code PTZ060, the dome can be either surface or flush mounted. An additional Silvered dome cover is available for more discrete surveillance.

NiteDevil EXPLAINED

One of the main advantages of NiteDevil's lower light technology is there is no limit to the distance the camera will see (other than the lens that is fitted) as it uses the overall illumination of the area it covers rather than relying upon the maximum distance and spread of IR light.

See the images below. In image 1 the IR camera can highlight the red car and that is it, however the same area when viewed by the NiteDevil technology (in image 2) can see a much wider and longer scene. The NiteDevil camera is actually getting all the light it needs for this from moonlight.

IR camera view

NiteDevil camera view

In these pictures the moon is three quarters full in both examples. These are actual video clips of NiteDevil actual video performance using only moonlight as the source of illumination on the NiteDevil website: www.nitedevil.com

Features

- ✓ 500TVL
- ✓ 27x Optical Zoom
- ✓ NiteDevil Technology
- ✓ 6 Tours
- ✓ 128 Pre-sets
- ✓ 360° Continuous Rotation
- ✓ 24V AC
- ✓ Auto Flip Function
- ✓ Metal Construction

Specification

- 1/4 Colour
- 4 Alarm Inputs
- 500TVL NiteDevil
- 0.001 Lux
- 27x Optical / 270x Overall Zoom
- IR Sensitive
- Electronic Day/Night
- Multi-Protocol - Pelco D + 15 others
- 360° Continuous Rotation
- Pan Speed 300°/sec
- Presets - 128
- Proportional Speed
- 24V AC 1.5A
- Quality Belt Mechanism / Tours - 6
- Full OSD / Picture Flip Function
- Low Noise Operation
- Metal Construction, Dia.135mm
