

NiteDevil
Sees in the Dark

PTZ505P

PTZ Turns Night into Day!

The 500 series is standard speed dome (rotating about 15°/s) and if its being used for remote monitoring purposes via broadband this can be the best choice as the slower rotation speed is easier to control remotely. With hi-speed domes that are controlled over broadband the "internet-delay" can make the dome hard to control when it's rotating a full 360° in 1 second!

PLUS Free Smoked Cover (clear cover supplied as standard), Free PSU + Free Ceiling Bracket with all options.
