How To:

Once installed, launch the app on your phone & follow these steps...

2 *Register your username & password and choose "Devices" from the menu tab*

3 *Press the "Add" icon in the top bar*

4 *Fill in all the details for your selected DVR the press the "Save" icon*

**5** *Return to the "Devices" list and the new DVR will be displayed*

6 *Select your DVR and then select "Start Realtime" to display the quad screen view. The quad screen allows visuals for up to 4 cameras.*

7 *Double tap a channel to view it full screen. Pressing the camera list icon allows you to choose which cameras are displayed.*

8 *Select the saved DVR (device) you wish to view to reveal the camera channel list*

9 *Select or de-select the cameras required and then press "Start Realtime"*

+ **You can also take snapshots and recordings of real-time images and store them on your mobile phone and even control PTZ cameras!**

Available for use on all the alienDVR range
